

**C++ Software Engineer £25k-35k depending on proven experience**

**(UK passport mandatory)**

C++ Developer with experience of Object Oriented programming in C++ is needed by our growing software house in Malvern, Worcestershire. The borwell team has grown progressively over its 15 year history - could you be the next star developer to join the growing team?

You will be joining an existing team of three to four people working on a specific customer's cyber security product. Due to their increased order book, they have asked us to find additional C++ developers to bolster their product development needs.

You should ideally have:

- Good experience with C++
- Demonstrable skills in Object Oriented (OO) software development principles
- Experience of using Team Foundation Server (TFS) or equivalent (e.g. GitHub)

**If you would like to apply for the above vacancy please send your CV to [careers@borwell.com](mailto:careers@borwell.com)**
